

# Good Samaritan Hospital Announces Its \$9 Million Investment in the Village of Suffern

Good Samaritan Hospital announces its \$9 Million Investment in the Village of Suffern embarking on a comprehensive upgrade to the facilities that house its orthopedic, infusion, and bariatric programs. **The expansion project, which conform in all aspects to the Codes of the Village of Suffern, has resulted in over \$83,000 in building permit revenue for the Village.** The project will bring a new level of patient experience to the region and foster a specialized, patient-first approach to bariatric and orthopedic care.

Through planned development, in compliance with the Codes of the Village of Suffern, the Village of Suffern is attracting economic development that will enhance the financial strength of our local economy and quality of life of our residents. Good Samaritan Hospital, a Member of the Westchester Medical Center Health Network, is home to one of the most comprehensive cardiovascular programs in the lower Hudson Valley area which includes, open heart surgery, cardiac catheterization laboratory, emergency angioplasty, electrophysiology, a pacemaker clinic and heart failure specialists. The hospital also provides regional specialty services, including comprehensive cancer treatment services offering the most advanced radiation therapy available and cutting-edge surgical oncology as well as maternal/child services, including a high-level II special care nursery and a Children's Diagnostic Center, which utilizes the services of pediatric subspecialists from Westchester Medical Center.
